

Fall 2017

Dear Parents and Guardians:

In accordance with the Children's Internet Protection Act (CIPA), Granbury ISD is committed to keeping students safe in all situations including those that involve the use of technology at school. We encourage effective and ethical use of today's digital resources while educating all students to behave appropriately online, use the internet safely, and report and respond effectively to any instances of cyber bullying.

Your child is taking part in lessons related to these topics. Please take time to ask about what they are learning, no matter how old or young your student might be. The resources listed below and others posted on the GISD Technology website offer even more tools for communicating with your student about digital citizenship. Parent involvement is crucial as we navigate the connected world in which our children live and learn.

If you have any questions or concerns, please don't hesitate to contact your campus principal or the GISD Technology Department.

Sincerely,

**Amy Wood**  
**Director of Technology**  
**Granbury ISD**
