  - (G) use online presentation management technologies to create, edit, transport, and share documents.
- (6) The student demonstrates public relations skills to increase internal and external customer satisfaction. The student is expected to communicate effectively when developing positive customer relationships.
- (7) The student designs solutions to mathematical business problems using advanced spreadsheet technologies. The student is expected to:
- (A) recognize and apply spreadsheet items such as lookup tables, what-if and built-in functions, macros, and advanced charts, graphs, and functions; and

- (B) create and interpret financial statements such as comparisons and projections, predictions and forecasts, trend analyses, and charts and graphs.
- (8) The student follows procedures of advanced data management. The student is expected to:
  - (A) design a database to solve business problems; and
  - (B) use advanced functions of database management such as updating queries, creating formulas, using built-in formulas, and creating custom format reports.
- (9) The student documents technical knowledge and skills. The student is expected to:
  - (A) prepare a professional electronic portfolio that includes information such as:
    - (i) attainment of technical skill competencies;
    - (ii) licensures or certifications;
    - (iii) recognitions, awards, and scholarships;
    - (iv) extended learning experiences such as community service and active participation in career and technical student organizations and professional organizations;
    - (v) sample letter of application;
    - (vi) abstract of key points of accomplishments;
    - (vii) resume;
    - (viii) samples of work; and
    - (ix) evaluation from a teacher; and
  - (B) present the portfolio to interested stakeholders.

**§130.138. Business Lab (One Credit), Adopted 2015.**

- (a) General requirements. This course is recommended for students in Grades 9-12 as a corequisite course for students participating in a coherent sequence of career and technical education courses in the Business Management and Administration Career Cluster. This course provides an enhancement opportunity for students to develop the additional skills necessary to pursue industry certification. Corequisite: any course in the Business Management and Administration Career Cluster. Recommended corequisite: Business Information Management I or Business Information Management II. This course must be taken concurrently with a corequisite course from the Business Management and Administration Career Cluster and may not be taken as a stand-alone course. Districts are encouraged to offer this lab in a consecutive block with the corequisite course to allow students sufficient time to master the content of both courses. Students shall be awarded one credit for successful completion of this course.
- (b) Introduction.
  - (1) Career and technical education instruction provides content aligned with challenging academic standards and relevant technical knowledge and skills for students to further their education and succeed in current or emerging professions.
  - (2) The Business Management and Administration Career Cluster focuses on careers in planning, organizing, directing, and evaluating business functions essential to efficient and productive business operations.
  - (3) Business Lab is designed to provide students an opportunity to further enhance skills of previously studied knowledge and skills and may be used as an extension of Business Information Management I or Business Information Management II; it is a recommended corequisite course, and may not be offered as a stand-alone course. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a

successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies. Students develop a foundation in the economical, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions.

- (4) Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.
  - (5) Statements that contain the word "including" reference content that must be mastered, while those that contain the phrase "such as" are intended as possible illustrative samples.
- (c) Knowledge and skills.
- (1) The student demonstrates professional standards/employability skills required by business and industry. The student is expected to:
    - (A) communicate effectively with others using oral and written skills;
    - (B) demonstrate collaboration skills through teamwork;
